RE: Review of named external spaces

Chancellor Wallace,

The IU Southeast Naming Review Committee has met twice this fall to review and discuss research findings on named external spaces on our campus. The committee is currently researching the following external named spaces:

Paul W. Ogle Cultural and Community Center
Caesars Foundation of Floyd County Amphitheater
Dr. Gerald Ruth Observatory
McCullough Plaza
Koetter Sports Complex

To date, research has not raised any issues or concerns that the above individuals or entities had or have views inimical to the fundamental values of the university. Research continues with an anticipated completion date of early spring.
